Read questions 7 and 8 before listening to the passage.

A recent mistake by a BoBo Doctor has once again drawn attention to the issue of foreign-trained doctors in Taiwan. Dr. Lin, who studied medicine in Eastern Europe, gave the wrong treatment to a patient during a routine surgery not long ago. Although the patient is now recovering, the case has raised serious concerns. Dr. Lin is part of a growing group of BoBo Doctors—Taiwanese students who study abroad after failing local medical exams, and then return and become doctors here. Many people worry that these doctors are not trained well enough. On the other hand, some believe they help fill gaps in areas that lack enough medical staff. In response, the government says it may soon make rules stricter to protect patients and rebuild trust. (Jun. Unit 11)

B 7. What is said about Dr. Lin's recent surgery?

(A) He used medicine from Eastern Europe.

(B) He administered an incorrect treatment.

(C) He did not finish the surgery.

(D) He left the country after the surgery.

D 8. What does the government say it will do?

(A) Make it easier to become a doctor in Taiwan.

(B) Pay for any damages caused by BoBo Doctors.

(C) Offer BoBo Doctors more jobs.

(D) Pass laws that will keep patients safe.

Kate's latest book, which was published this year, is *The Trouble with Heroes*. It's a heartwarming story about a boy who climbs 46 mountain peaks in one summer as part of a journey of healing and self-discovery.
